

Aluminum Foil Tape

Description

Naikos aluminum foil tape consisting a aluminum foil backing coated with acrylic adhesive or hot melt adhesive. It shows great conductivity performance and EMI shielding for various applications.

Construction

Features

- * Waterproof,
- * Cold and heat resistance
- * UV resistance
- * Flame retardant

Application

- * Pipe section joints and seams
- * EMI shielding
- * Refrigerator, air conditioning
- * Electronic industry

Cooking Bench

Pipeline Seal

Pipeline Leak Proof

Pipe Connection

Damage Repair

Hutch Defends Moistureproof

Properties

Item	NKS-###AFTN	NKS-###AFTC
Carrier	Aluminum Foil	Aluminum Foil
Total thickness	0.035~0.2 mm(1.38~7.87 mil)	0.06~0.2 mm(2.36~7.87 mil)
Color	Silver	Silver
Adhesive	Non-Conductive Adhesive	Conductive PSA
Adhesion to Stainless Steel	> 8 N/25mm(> 28.2 oz/inch)	> 8 N/25mm(> 28.2 oz/inch)
Temperature Resistance	-20~+120 °C(-4~+248 °F)	-20~+120 °C(-4~+248 °F)
